

L&DORNA

Yearly report for 2007-08

This is my first year as president for London and District peri Operative Registered Nurses Association. It has been a successful year and hoping next year to be even better. I welcome Sue Taylor as our president elect. We are in need of a secretary and treasurer(Kathi Christiansen will stay till we find someone) and will be canvassing for these positions as our membership drive begins. Jan Fitchett is our membership person.

To start, we had 4 meetings that were well attended with approximately 30 people attending each meeting. Our first dinner meeting was one of our Gyn surgeon came to talk to us about hormone replacement. The second dinner meeting was a speaker on forensic nursing (showing us graphic pictures on how they solve what happened and when). Our third dinner meeting was about pension planning-we had a representative come talk to us from HOOP. Our last meeting was about Organ Transplantation. It was about the program that is available for the high school students with information about organ transplantation.

We have 72 members and 2 associate members. We have reimbursed 3 members for funding for the Victoria conference last year.

Next year meeting are being planned with a golf tournament for the fall, nursing and the law, a speaker on Katrina, and ESU safety. We are in the thinking stages of hosting another L&DORNA conference next spring. Our fees are \$40.00 for the 2008-09 year.
